1953 INTRODUCTIONS by CLARENCE WHITE

We are proud to present here 3 of Mr. White's newest creations.

ARJUNA AGA (White)—Oncobred. A tall, vigorous bicolor hybrid with toast standards and gold brown falls. Brown madder signal. **\$10.00**

AHMED AGA (White)—Oncobred. A much patterned hybrid with lavender standards splashed violet and veined gold; falls cream buff with chamois edge. Brown madder signal. **\$10.00**

JOEL AGA (White)—Oncobred. A dark rich colored hybrid with a heavy pattern of purple stiples on buff ground. **\$10.00**

1953 INTRODUCTIONS by TOM CRAIG

TALL BEARDED IRIS

AAHME (Craig)—Fine formed flower of delicate and clear orchid pink, with beard of coral blush. Hall 44-50 x (Peach Parfait sib. x Fantasy). Twice flowering. **\$15.00**

ALMOND BLOSSOM (Craig)—Clearest pale pink with smooth baby pink hafts. Hall 42-07 x Peach Parfait sib. **\$10.00**

BALDY (Craig)—Gull gray and iridescent black-purple bicolor-neglecta with a brilliant yellow-orange beard. ((Acropolis x Destiny) x Wabash) x (Regal Robe x Wabash). **\$7.50**

CUPID'S DART (Craig)—Like a statuesque blonde with unrestrained makeup. The bittersweet beard is like a clear cut dash of lipstick on a powder pink countenance. The smooth haft-cheeks are deeply rouged intense, warm pink. This is the finest landscape pink I know. It is that giant iris Mt. Washington in a new bright color; moreover it flowers heavily in spring and fall. (Mt. Washington x Flora Zenor) x sib. **\$10.00**

GLOWING AMBER (Craig)—A real break in iris patterns. Under-color golden amber over which burnt umber and sepia seem to be glazed in a smoky, radiating pattern. (Joseph's Mantle x Rich Raiment.) **\$15.00**

HEATHERLANDS (Craig)—Very full, broad form with purple heather standards and woodviolet falls. The whole fancy plicata flower, specially the falls, striated or brushed with white. Blooms in fall, too. **\$15.00**

PORT (Craig)—Medium large, deep port-wine red self. The very smooth hafts are somewhat warmer. (Garden Glory x Molten.) **\$15.00**

SPICE (Craig)—A bright, spicy golden tan blend with a deep chrome beard and an orchid blaze. (Molten x Golden Perch.) **\$10.00**

ONCOCYCLUS IRIS

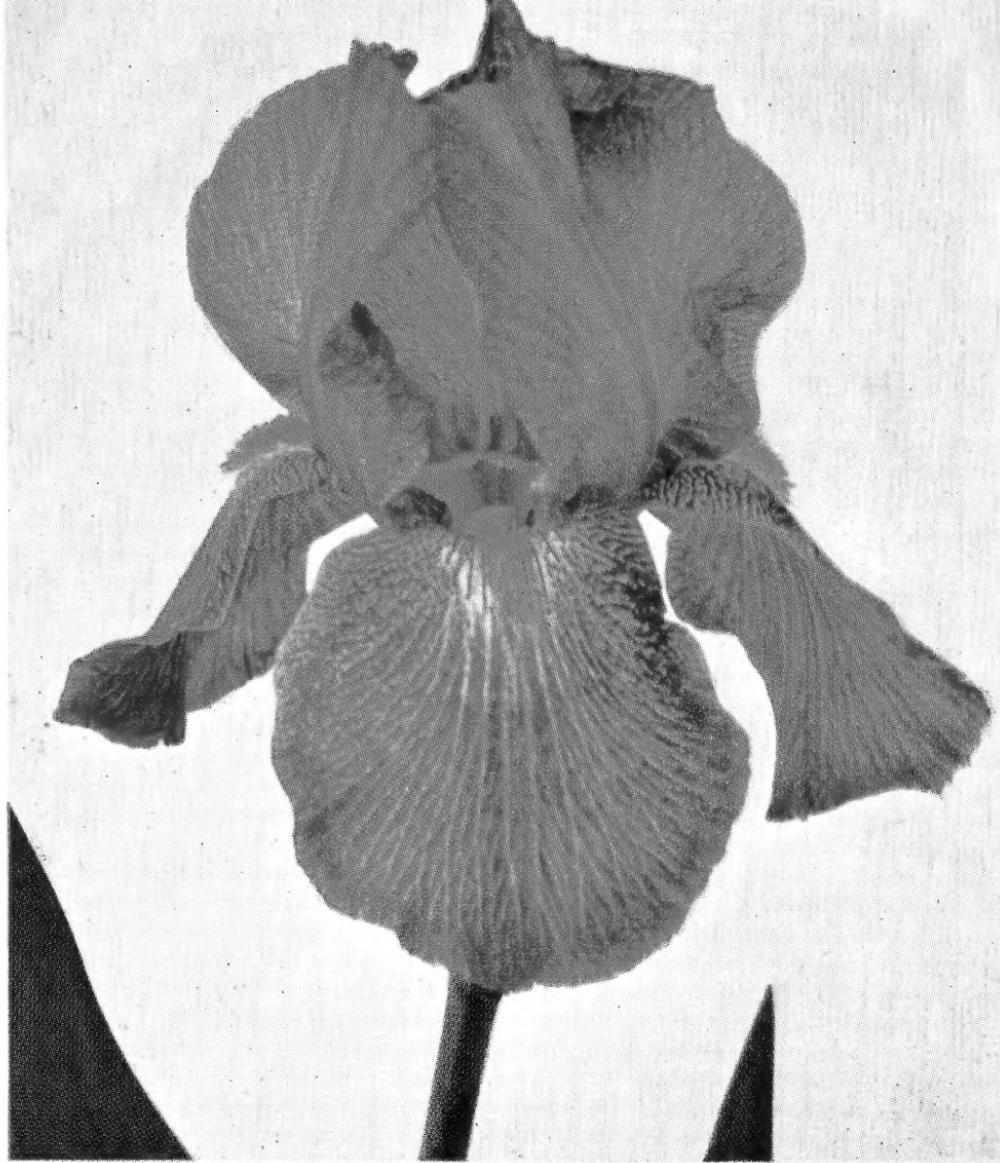

BAMBOO (Craig)—Flower tan with falls completely and boldly veined burgundy. (Gay Senorita x Capitola.) **\$7.50**

CORONATION TAPESTRY (Craig)—Strangely blended and veined bicolor involving lilac, brown, gold, coronation purple, rosy maroon, hudson seal and palmleaf green. (Gay Senorita x Joppa Parrot.) **\$10.00**

GLOWMOHR (Craig)—Large, heavily patterned Mohr-type flower in rosy lilac (7-302 x Capitola.) **\$7.50**

MOURNING DOVE (Craig)—An immense and curiously patterned broad flaring dove-gray Mohr hybrid. (Mariposa Mia x Capitola.) **\$7.50**

MAUVE DUST (Craig)—Handsome dusky violet Mohr-type hybrid. Very tall. (7-302 x Capitola.) **\$7.50**

Our Own RICH RAIMENT. See Page 14.

1953 General List BEARDED IRIS

Would you go out into your garden and dig and destroy hundreds of varieties of your flowers? Well, we do. In the last two years we have dropped over 200 varieties of bearded iris alone from our fields. This isn't just caprice, nor are we reducing our offerings to you—it's only that we keep on acquiring distinctly better strains both from other growers and our own considerable breeding program. In this way we can grow not just iris, but the **best** iris for you, and you have in the neighborhood of 500 varieties to choose from!

Iris Collection

"Be not the first by whom the new are tried
Nor yet the last to lay the old aside."

Upon this bit of 18th century wisdom this collection is assembled. These are all varieties of fairly recent introduction—tested and approved by countless gardeners and fanciers. Yet, they have been grown long enough now so that good supplies are available, and the prices have accordingly come down from their lofty peaks. All these iris now sell for \$1.50 to \$3.50 each.

CRAIG'S BREEDING COLLECTION

With pedigree: 5 for \$3.50; 10 for \$6.00

ONCOBREDS, MOHR HYBRIDS, TANGERINE BEARDED PINKS, HOT REDS, PLICATA FANCIES, etc. With Mr. White we have, in these selected seedlings, the best oncobred and Mohr hybrids in existence. Our selected tangerine bearded pinks are tops in comparison with others selling for \$10.00 or more. Our plicatas display unbelievable quality and variety. Special emphasis has been placed in securing fine reds, and also in selecting for types that bloom frequently out of season as well as in the spring. From countless thousands of different seedlings we have selected only hundreds. All but a few of these top selected seedlings will go into this breeding collection. We can't introduce them all. This is the way for you to take advantage of brother and sister lines nearly identical to the most expensive varieties.

These selected hybrid seedlings will be sent with pedigree attached. Only beautiful and high quality flowers reach this advanced stage of selection, so you will have lovely things for your own, exclusive clons. State your special interest with order. For seedlings **without pedigree, deduct 15%.**

THE ABSOLUTE MOSTEST BEARDED IRIS FOR YOUR MONEY

We've got lots of land, and plenty of energy, and high fertility, and perfect climate, and all this adds up to really vast numbers of iris plants. Quantities of them go to our wholesale customers, and so long as we are growing on this scale you might as well benefit by it, too.

So here's the way we've figured we can sell top grade rhizomes at impressively low prices for you folks who want to spread a dollar over a lot of ground.

How's this for irresistible bargains!

SPURIA IRIS

This class of beardless iris has many virtues. The plants are hardy everywhere; they need not be lifted frequently; the flowers keep well when cut. Resembling dutch iris in flower form, except that they are larger, spurias bloom along with your late bearded iris. **Spurias are shipped in the fall.**

Extreme Color Range

DAYLILY COLLECTION

There was a time when daylilies were just plain yellow, but in the last 50 years vast increases in color range have taken place. Now we can offer shades from near white primrose through canary, pink, orange and red to deepest maroons and purples, with many wonderful bicolors besides.

This group is our choice of varieties for the absolute limits of color range available today. It includes the most modern achievements in broadening the daylily color field.
